

heernet ventures

Industry Research Analyst

Exciting opportunity to work for a UK-based research and advisory firm in its Gurgaon office.

Remuneration: To attract the best applicants.

Heernet ventures is seeking outstanding Research Associates to undertake business research assignments on the global media industry and a range of industry sectors in India.

We offer a very stimulating work environment, with the opportunity to take on significant responsibility and have real ownership for delivering complete projects.

About Heernet ventures

Heernet Ventures provides a range of research and advisory services to both strategic and financial investors. Our two areas of industry expertise are the global media industry and the Indian economy (this operates under the IndiaAnalysis brand). Our services are delivered to our clients through two offerings: consultancy work; and off the shelf publications.

Our publications provide investors with an insight into specific companies, countries (Polish media market) or sectors (e.g. European radio, Indian tractor market). Our consultancy assignments typically involve 3-6 month projects for clients on strategy projects.

Our clients include leading investment banks, private equity firms and media companies.

Heernet Ventures was established in 2004 by professionals with experience of investment banking and consulting and also direct experience of working for leading media organisations. The company is based in the UK, but has been active in India since 2005; in February 2007, it opened its India office in Gurgaon.

For more information on Heernet Ventures, please see our website heernet.com.

What we offer

Heernet ventures offers a highly stimulating work environment, intellectually challenging work and as much responsibility as you can manage. As a research associate, you would have responsibility for developing and delivering business research – either client commissioned research or an off the shelf report. A typical piece of research can range from a single company analysis to a major market study which may be up to 300 pages in length and take months to complete. Research Associates will have the opportunity to specialise in one or more industry sectors (for example, the Indian media and telecoms sectors).

Research Associates may also have the opportunity to work in the UK for a 2-3 month period.

Heernet ventures offers a remuneration package to attract the best. Remuneration consists of an excellent basic salary, various living allowances and good performers can expect to earn outstanding bonuses (of up to 100% of basic salary).

Skills required

We are seeking applicants with strong academic backgrounds (Master's level business qualification from a reputable university), a minimum of 2 years of business research experience (for senior analysts) and some evidence of business research experience (for junior analysts) - but above all, we are looking for drive, a strong intellect and a hard work ethic.

More specifically, applicants should have:

- ▶ Passion for undertaking business research and analysis;
- ▶ Ability to analyse and interpret information (including company financials).
- ▶ Good writing skills in English.
- ▶ Good skills in using Microsoft Word and Excel (will be tested during the selection process).

We are particularly interested in applicants with experience in equity research.

To apply

Please complete our application form (it can be downloaded from our website) and email it to careers@heernet.com.
